OPEN TO RELOCATION

Summary

Product Designer with ~10 years of experience in B2B SaaS, CRM, and AI product design. Currently at Salesmate (via Rapidops Inc.), where I lead design across the Salesmate CRM product and the Skara AI Agents platform.

My work goes beyond screen design - I also built **sm-framework**, Salesmate's internal Angular component library, by setting up the full Salesmate development environment locally and using AI coding tools (GitHub Copilot, Claude AI, and OpenAI Codex) to systematically convert design tokens and Figma components into production-ready Angular code documented in Storybook. This gives me a practical understanding of how design decisions translate into real code, which helps me work closely with engineering and reduce handoff friction.

Core Expertise:

- ✦ **AI Product Design:** Designing no-code agent builders, conversational UX, and AI-powered CRM features
- ✦ **Design Systems & Component Libraries:** Building scalable design systems and Angular component libraries (sm-framework) that connect Figma design tokens directly to production code
- ✦ **Design-to-Code:** Hands-on with Angular, HTML/CSS, Bootstrap, LESS - able to build, review, and contribute to front-end code, not just hand off specs
- ✦ **B2B SaaS Product Strategy:** Shaping product direction from research and wireframes through to launch, working directly with the CEO
- ✦ **User Research & Prototyping:** Running research sessions and turning findings into clear, tested design solutions
- ✦ **AI-Assisted Development:** Using GitHub Copilot, Claude AI, and OpenAI Codex to accelerate component development and design system work
- ✦ **Tools:** Figma, Storybook 8, Angular, Bootstrap, LESS, HTML/CSS

Experience

Product Design Lead | Salesmate (Rapidops Inc.)

Ahmedabad, India | Nov 2023 – Present

- ✦ Led end-to-end product design for Salesmate - an all-in-one CRM and AI Agents platform covering sales, marketing, support, and customer engagement
- ✦ Designed the Skara AI Agent Builder - a no-code tool that lets businesses build, train, and deploy AI agents across web, WhatsApp, SMS, and voice channels without any developer involvement.
- ✦ Designed the AI Co-pilot mode (suggests replies to human agents in real time) and AI Auto-pilot mode (handles customer conversations fully on its own), as well as vertical-specific agent experiences for eCommerce, retail, agencies, and enterprise.

- ✦ Designed AI-powered CRM features including call transcription, call summaries, sentiment tracking, and AI-assisted email composition
- ✦ Built sm-framework - Salesmate's internal Angular component library. Set up the full Salesmate frontend development environment locally (~2,974 components across 18 sub-apps), then used AI coding tools (GitHub Copilot, Claude AI, OpenAI Codex) to convert Figma design tokens into LESS variables and build reusable Angular components documented in Storybook
- ✦ Built and maintain a Global Design System covering the CRM product, Skara mobile apps (iOS & Android), and all marketing channels.
- ✦ Led UI/UX design for Salesmate.io and the Skara brand website, including product landing pages, feature pages, and call marketing channels.

Senior UI/UX Designer | Rapidops Inc

Ahmedabad, India | Apr 2020 – Present

- ✦ Led end-to-end product design for B2B, B2C, and eCommerce platforms - from user research and wireframes through to high-fidelity prototypes and developer handoff.
- ✦ Built design systems to keep product interfaces consistent and reduce design debt across multiple platforms.
- ✦ Worked closely with engineering teams to ensure accurate implementation of designs.
- ✦ Conducted user research sessions and translated findings into design decisions.

UI/UX Designer | Techuz InfoWeb Pvt Ltd

Ahmedabad, India | Aug 2016 – Mar 2020

- ✦ Designed responsive web and mobile interfaces across a range of client projects.
- ✦ Handled both design and front-end development (Angular, HTML/CSS, Bootstrap), reducing handoff friction between design and engineering.
- ✦ Delivered production-ready interfaces from wireframe through to deployment.

Junior Web Designer | WebCodeGenie Technology Pvt Ltd

Ahmedabad, India | Dec 2015 – Jul 2016

- ✦ Converted PSD designs into responsive HTML/CSS websites.
- ✦ Managed deployment, maintenance, and cross-browser optimization.

Education

Master of Computer Applications (MCA)

Indus University, Ahmedabad (2012 – 2015)

Certifications

- ✦ Generative AI: Prompt Engineering, IBM
- ✦ Foundation of User Experience (UX), Coursera
- ✦ Using AI in the UX Design Process, LinkedIn
- ✦ Product Management: Building a Product Strategy, LinkedIn
- ✦ Product Management: Building a Product Roadmap, LinkedIn

Awards

- ✦ High Achiever - Creative Design 2024
